

Data Analysis Project Stages

- 1- Data Understanding (Understand each column)
- 2- Load Data
- 3- Data Exploration (Overview about the data)
- 4- Data Cleaning (in depth cleaning for each column)
- 5- Feature Engineering (Extract)
- 6- Data Analysis (Univariate, Bivariate, Multivariate)

Visualization

Univariate

Bivariate

Num Vs Num

- Scatter

- Line

Num Vs Cat

- Box, Violin, Strip

- Bar

Multivariate

Cat Vs Cat
